~~Practise and prepare for AQA A-level Biology with hundreds of topic-based questions and one complete set of exam practice papers designed to strengthen knowledge and prepare students for the exams. This extensive practice book raises students' performance by providing 'shed loads of practice', following the 'SLOP' learning approach that's recommended by teachers. - Consolidate knowledge and understanding with practice questions for every topic and type of question, including multiple-choice, multi-step calculations and extended response questions. - Develop the mathematical, literacy and practical skills required for the exams; each question indicates in the margin which skills are being tested. - Confidently approach the exam having completed one set of exam-style practice papers that replicate the types, wording and structure of the questions students will face. - Identify topics and skills for revision, using the page references in the margin to refer back to the specification and accompanying Hodder Education Student Books for remediation. - Easily check answers with fully worked solutions and mark schemes provided in the book.~~

~~This Success Revision Guide offers accessible content to help students manage their revision and prepare for the exam efficiently. The content is broken into manageable sections and advice is offered to help build students' confidence. Exam tips and techniques are provided to support students throughout the revision process.~~

~~Applying for medical school needn't be such a daunting prospect with this book on your side. Packed with insight, tips, and information you won't find anywhere else, the second edition of So you want to be a doctor? is an essential guide to the application process from start to finish. Over 100 medical students and admissions tutors have contributed to unique profiles of every medical school in the UK. An insider point-of-view on each school is complemented by straight-forward rankings of each school by the cost of living, the difficulty of the course, and the competition for each place. With such a comprehensive and honest survey of UK medical schools, choosing the right one for you has never been easier. Alongside these profiles, this guide is packed with practical advice for every step of the application process. Find out what kind of work experience is best, and how to go about getting it. Prepare for your interview with an updated chapter including sample questions taken from the direct experience of successful medical school candidates. Ace your UKCAT or BMAT by learning how to approach the tests strategically and practising with the included sample questions. So you want to be a doctor? Then you'll need this book!~~

~~Develop experimental, analytical and evaluation skills with topical biology examples, practical assessment guidance and differentiated end-of-topic questions in this updated, all-in-one textbook for Years 1 and 2. Written for the AQA A-level Biology specification, this revised textbook will: - Provide support for all 12 required practicals with plenty of activities and data analysis guidance. - Develop understanding with engaging and contemporary examples to help you apply your knowledge, analyse data and evaluate findings. - Give detailed guidance on the mathematical skills needed with support throughout, examples of method and a dedicated 'Developing mathematical skills' chapter. - Offer regular opportunities to test understanding with 'Test yourself' questions, differentiated end-of-topic questions and 'Stretch and challenge' questions. - Support exam preparation with synoptic questions, revision tips and skills. - Develop understanding with free online access to 'Test yourself' answers, 'Practice' question answers and extended glossaries".~~

~~Target exam success with My Revision Notes. Our updated approach to revision will help students learn, practise and apply their skills and understanding. Coverage of key content is combined with practical study tips and effective revision strategies to create a revision guide students can rely on to build both knowledge and confidence. My Revision Notes will help students to: - Plan and manage a successful revision programme using the topic-by-topic planner - Consolidate your knowledge by working through clear and focused content coverage - Test understanding and identify areas for improvement with regular tasks and answers - Improve exam technique through practice questions, expert tips and examples of typical mistakes to avoid~~

~~This chemistry text is written to match exactly the specification for teaching Advanced Chemistry from September 2000. There are two strands, AS and A2, with student books. The accompanying resource packs are also available on CD-ROM.~~

~~The must-have guide to getting into medical school. Each chapter guides you through another step of the process, from deciding if medicine is for you and choosing a medical school, to passing the UKCAT and BMAT exams, applying to Oxbridge and getting through the interview.~~

~~If you are studying for AS Biology and are following the AQA specification A, this revision guide will give you exactly what you need to know for the exams with no superfluous material. Practice exam style questions are included for each module.~~

~~Written by Steve Potter and revised by a senior examiner, Martin Rowland, this AQA AS Biology Student Unit Guide is the essential study companion for Unit 2: The Variety of Living Organisms. This full-colour book includes all you need to know to prepare for your unit exam: clear guidance on the content of the unit, with topic summaries, knowledge check questions and a quick-reference index, examiner's advice throughout, so you will know what to expect in the exam and will be able to demonstrate the skills required and exam-style questions, with graded student responses, so you can see clearly what is required to get a better grade.~~
