Organizational diagnosis- what you need to know. Organizational diagnosis is a creative method for getting to know an organization at all levels- from the surface levels to the deepest hidden parts that aren't visible to the eye. Performing organizational diagnosis is not so far off from a doctor trying to diagnose their patients.

the second stage of the OD consultancy cycle. It's primary aim to provide the organisational leadership and the OD practitioner with data, and a clear basis for decisions regarding what OD interventions are appropriate going forward. It is during this phase that the OD consultant can develop a deep understanding of the organisational situation, what issues the organisation is facing and what strengths the organisation possesses in ...

Diagnosis for Organizational Change: Methods and Models ...

Abstract. In the present study, the challenge to apply theory in the practice of organizational change management is addressed in the context of a field setting. The research explains the process of conducting an organizational diagnosis reflecting current practices of using theory-based assessment models; demonstrates the benefits of collecting and analyzing quantitative and qualitative data in organizational diagnosis; and discusses the results of the

Some Types of Organizational Diagnostic Models

This chapter examines the main features of diagnosis and its uses in consultations for organizational improvement and change. Three critical facets of diagnosis are introduced: (a) process—working with members of an organization to plan a diagnostic study, administer it, and provide feedback on the findings; (b) modeling—using models to frame issues, guide data gathering, identify organizational conditions underlying problems, and organize feedback; and (c)

This review selectively examines the theoretical and empirical organizational change literature over the past nine years (1990–early 1998). Four research themes or issues common to all change efforts are discussed: (a) content issues, which largely focus on the substance of contemporary organizational changes; (b) contextual issues, which principally focus on forces or conditions existing in ...
