Microeconomics by Ragan is an excellent introductory economics text. It draws in a lot of examples from recent history - e.g., gasoline prices at different years between 2002-2011 when explaining elasticity and comparing it to what happened in the 1970's. It also builds up concepts in a clear and easy to understand way.

Iris Au and Jack Parkinson of the University of Toronto, Scarborough have "Canadianized" the Macroeconomics section of Krugman/Wells, Economics, Third Edition, maintaining the structure and spirit of the U.S. version but adapting it to reflect Canadian macroeconomic policies and to appeal more directly to Canadian instructors and students. In almost every instance, U.S. data sets, cases, research, and policy discussions have been supplanted by Canadian material.

This 13th edition has been revised and updated to offer economics students an introduction to economics and its core principles. New case studies and themed boxed examples, in-depth explanations and an expanded online resource centre will help students progress with their studies.
