Blinking Green Light. Many people with a rear projection Mitsubishi TV often experience what is commonly known as the "Blinking Green Light of Death". It's known as this because it means that your television is about to die. But, even relatively new televisions can experience this problem, and Mitsubishi customer service doesn't really know how to fix the problem.

Mitsubishi Television Repair – iFixit

Check the physical connection on the TV and the source device to make sure that it hasn't come loose and is making solid contact. Connect another device to the same input. Make sure the source device is set to ouput HDMI. (some devices will require a manual setting to output HDMI). Switch that device to a different input.
