John James Todd is born in Scotland in 1899, and The New Confessions follows his life from childhood to a boarding school, to the Great War, to his work in silent film in Germany, to the Second World War, to America up to the 1970s. Todd's life's work is to adapt Rousseau's Confessions into film. In some ways, this novel can be introduced to prospective readers as a Forrest Gump story—history from the point of view of one man's life.

Featuring 15 explosive new chapters, this new edition of the New York Times bestseller brings the story of Economic Hit Men up-to-date and, chillingly, home to the U.S.-but it also gives us hope and the tools to fight back. Former economic hit man John Perkins shares new details about the ways he and others cheated countries around the globe out of trillions of dollars. Then he reveals how the deadly EHM cancer he helped create has spread far more widely and deeply than ever in the US and everywhere else-to become the dominant system of business, government, and society today. Finally, he gives an insider view of what we each can do to change it. Economic hit men are the shock troops of what Perkins calls the corporatocracy, a vast network of corporations, banks, colluding governments, and the rich and powerful people tied to them. If the EHMs can't maintain the corrupt status quo through nonviolent coercion, the jackal assassins swoop in. The heart of this book is a completely new section, over 100 pages long, that exposes the fact that all the EHM and jackal tools-false economics, false promises, threats, bribes, extortion, debt, deception, coups, assassinations, unbridled military power-are used around the world today exponentially more than during the era Perkins exposed over a decade ago. As dark as the story gets, this reformed EHM also provides hope. Perkins offers specific actions each of us can take to

transform what he calls a failing Death Economy into a Life Economy that provides sustainable abundance for all.

Perkins, a former chief economist at a Boston strategic-consulting firm, confesses he was an "economic hit man" for 10 years, helping U.S. intelligence agencies and multinationals cajole and blackmail foreign leaders into serving U.S. foreign policy and awarding lucrative contracts to American business.

In this extraordinary novel, William Boyd presents the autobiography of John James Todd, whose uncanny and exhilarating life as one of the most unappreciated geniuses of the twentieth century is equal parts Laurence Stern, Charles Dickens, Robertson Davies, and Saul Bellow, and a hundred percent William Boyd. From his birth in 1899, Todd was doomed. Emerging from his angst-filled childhood, he rushes into the throes of the twentieth century on the Western Front during the Great War, and quickly changes his role on the battlefield from cannon fodder to cameraman. When he becomes a prisoner of war, he discovers Rousseau's Confessions, and dedicates his life to bringing the memoir to the silver screen. Plagued by bad luck and blind ambition, Todd becomes a celebrated London upstart, a Weimar luminary, and finally a disgruntled director of cowboy movies and the eleventh member of the Hollywood Ten. Ambitious and entertaining, Boyd has invented a most irresistible hero.

Shocking Bestseller: The original version of this astonishing tell - all book spent 73 weeks on the New York Times bestseller list, has sold more than 1.25 million copies, and has been translated into 32 languages. New Revelations: Featuring 15 explosive new chapters, this expanded edition of Perkins's classic bestseller brings the story of economic hit men (EHMs) up to date and, chillingly, home to the US. Over 40 percent of the book is new, including chapters identifying today's EHMs and a detailed chronology extensively documenting EHM activity since the first edition was published in 2004. Former economic hit man John Perkins shares new details about the ways he and others cheated countries around the globe out of trillions of dollars. Then he reveals how the deadly EHM cancer he helped create has spread far more widely and deeply than ever in the US and everywhere else - to become the dominant system of business, government, and society today. Finally, he gives an insider view of what we each can do to change it. Economic hit men are the shock troops of what Perkins calls the corporatocracy, a vast network of corporations, banks, colluding governments, and the rich and powerful people tied to them. The heart of this book is a completely new section, over 100 pages long, that exposes the fact that all the EHM and jackal tools - false economics, false promises, threats, bribes, extortion, debt, deception, coups, assassinations, unbridled military power - are used around the world today exponentially more than during the era Perkins exposed over a decade ago. The material in this new section ranges from the Seychelles, Honduras, Ecuador, and Libya to Turkey, Western Europe, Vietnam, China, and, in perhaps the most unexpected and sinister development, the United States, where the new EHMs - bankers, lobbyists, corporate executives, and others - 'con governments and the public into submitting to policies that make the rich richer and the poor poorer.' But as dark as the story gets, this reformed EHM also provides hope. Perkins offers a detailed list of specific actions each of us can take to transform what he calls a failing Death Economy into a Life Economy that provides sustainable abundance for all.

A New York Times Editors' Choice: "A mind-bending romp through a gender-fluid, eighteenth century London . . . a joyous mash-up of literary genres shot through with queer theory and awash in sex, crime, and revolution." NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New Yorker • HuffPost • Kirkus Reviews • Finalist for the Lambda Literary Award • Shortlisted for the Center for Fiction First Novel Prize • "A dazzling tale of queer romance and resistance."—Time Jack Sheppard and Edgeworth Bess were the most notorious thieves, jailbreakers, and lovers of eighteenth-century London. Yet no one knows the true story; their confessions have never been found. Until now. Reeling from heartbreak, a scholar named Dr. Voth discovers a long-lost manuscript—a gender-defying exposé of Jack and Bess's adventures. Is Confessions of the Fox an authentic autobiography or a hoax? As Dr. Voth is drawn deeper into Jack and Bess's tale of underworld resistance and gender transformation, it becomes clear that their fates are intertwined—and only a miracle will save them all. Writing with the narrative mastery of Sarah Waters and the playful imagination of Nabokov, Jordy Rosenberg is an audacious storyteller of extraordinary talent. Praise for Confessions of the Fox "A cunning metafiction of vulpine versatility . . . an action-adventure tale with postmodern flourishes; an academic comedy spliced with period erotica; an intimate meditation on belonging."—Katy Waldman, The New Yorker "Confessions of the Fox is so goddamned good. Reading it was like an out-of-body experience. I want to run through the streets screaming about it. It should be in the personal canon of every queer and non-cis person. Read it."—Carmen Maria Machado, National Book Award finalist for Her Body and Other Parties "A hat tip to Moby-Dick . . . a running footnote hall of mirrors to rival Borges . . . one of the most trenchant calls for progressive action that I have read in a very long time."—The New York Times Book Review "An ambitious work of metafiction, a sexy queer love story . . . a bold first novel."—Entertainment Weekly

"This eloquent book inspires us to create a new reality of what it means to be human on this magnificent planet." —Deepak Chopra When New York Times bestselling author John Perkins was a young Peace Corps volunteer, his life was saved by an Amazonian shaman who taught him to "touch the jaguar"—to transform his fears into positive action. He went on to become an "economic hit man" (EHM), convincing developing countries to build huge infrastructure projects that put them perpetually in debt to the World Bank and other US-controlled institutions. Although he sincerely believed this was the best model for economic development, he came to realize it was really a new form of colonialism. Returning to the Amazon, he saw the destructive impact of his EHM work. But he also was inspired by a previously uncontacted tribe that touched its jaguar by uniting with its enemies to defend its territory against invading oil and mining companies. For the first time, Perkins details how his experiences in the Amazon converted him from an EHM to a crusader for transforming our failing Death Economy that destroys its own resources and nature itself into a flourishing Life Economy that renews itself. He provides a strategy for each of us to change our lives and defend our territory—the earth—against destructive policies and systems.

New York Times bestselling author Jen Lancaster takes you from sorority house to penthouse to poorhouse in her hilarious memoir of living the sweet life—until real life kicked her to the curb. She had the perfect man, the perfect job—hell, she had the perfect life—and there was no reason to think it wouldn't last. Or maybe there was, but Jen Lancaster was too busy being manicured, pedicured, highlighted, and generally adored to notice. This is the smart-mouthed, soul-searching story of a woman trying to figure out what happens next when she's gone from six figures to unemployment checks and she stops to reconsider some of the less-than-rosy attitudes and values she thought she'd never have to answer for when times were good. Filled with caustic wit and unusual insight, it's a rollicking read as speedy and unpredictable as the trajectory of a burst balloon.

Peter Selgin was cursed/blessed with an unusual childhood. The son of Italian immigrants—his father an electronics inventor and a mother so good looking UPS drivers swerved off their routes to see her—Selgin spent his formative years scrambling among the hat factory ruins of a small Connecticut town, visiting doting—and dotty—relatives in the "old world," watching mental giants clash at Mensa gatherings, enduring Pavlovian training sessions with a grandmother bent on "curing" his left-handedness, and competing savagely with his right-handed twin. It's no surprise, then, that Selgin went on from these peculiar beginnings to do . . . well, nearly everything. *Confessions of a Left-Handed Man* is a bold, unblushing journey down roads less traveled. Whether recounting his work driving a furniture delivery truck, his years as a caricaturist, his obsession with the Titanic that compelled him to complete seventy-five paintings of the ship (in sinking and nonsinking poses), or his daily life as a writer, from start to finish readers are treated to a vividly detailed, sometimes hilarious, often moving, but always memorable life. In this modern-day picaresque, Selgin narrates an artist's journey from unconventional roots through gritty experience to artistic achievement. With an elegant narrative voice that is, by turns, frank, witty, and acid-tongued, Selgin confronts his past while coming to terms with approaching middle age, reaching self-understanding tempered by reflection, regret, and a sharply self-deprecating sense of humor.
