The best way to describe "Time, Money & Fractions, Grades 1-2" is as an electronic workbook. It is not really what I would classify as a computer "game". The exercises do offer some good reinforcement of basic skills, but I have to sit with my daughter while she uses this program in order to explain/interpret the directions and to help her find the keys on the keyboard.

Does you child know how many dimes make a dollar? You can count on this workbook to cover coin values and other skills pertaining to money. You can also count on being surprised at how much your child will learn about time and fractions in this lively, 64-page skill-building workbook. The skills typically taught in Grades 1 and 2 are right here: counting and comparing amounts of money to 99 cents, telling time by the hour, half hour, and quarter hour, plus identifying halves, thirds, and fourths of regions and groups. The workbook is aligned with the Common Core State Standards for Mathematics, a comprehensive and progressive set of learning objectives created to help students succeed in math. At the bottom of each workbook page is a cross-reference to the Common Core grade level and "domain" or skill area that the activity practices. The workbook is also consistent with Principles and Standards for School Mathematics, a publication by the National Council for Teachers of Mathematics (NCTM), and it is compatible with Singapore math pedagogy. The lessons are planned in learning sequence; skills introduced in one lesson build on those taught in previous lessons. It's a perfect way to introduce, review, and maintain essential math skills.

For 20 years, School Zone I Know It! books have set the standard for home learning materials. Each book is developed by professional educators to complement the curriculum at each grade. Each I Know It! book has clear instructions and fun-to-do exercises.

Get your kid ready for the real money world with our Money Math Workbook! ?

100 days of practice counting money, learning fractions, and telling the time. Three core areas of math that students often need additional help to master. Start by counting groups of coins that have a value of a dollar or less. Slowly learn to count greater amounts of money that include small and large bills too. Add and subtract values, and even learn to make change. Learn fractions one step at a time. Start with simple fractions and eventually learn to add and subtract mixed numbers. Telling the time is one of the more difficult concepts for children to learn. Gradually progress from learning to tell hours, to quarter hours. Eventually tell time in five minute and minute increments. This is a great workbook to start out with. Most students will grasp the concepts within each of the three sections. If a student still needs more practice, Humble Math has workbooks that provide additional practice for these concepts too.

Big Math Grades 1 and 2 Workbook is packed with 300+ colorful exercises that will keep your child thinking! . This workbook is intended to help children learn the necessary fundamentals of first grade math and second grade math. These proven activities will help prepare your child for success in basic math in this fractions, word problems, time, money, addition and subtraction workbook. With the colorful and kid friendly illustrations and easy directions with visual clues, this 1st grade and 2nd grade math workbook is fun and easy to use. The perforated pages make it easy to tear out and create individual worksheets, and each skill being practiced is listed at the bottom of each page to help keep track. This math basics workbook also includes an answer key. It covers the math grade 1 and grade 2 curriculum and is packed with exercises that make learning fun. Intended for ages 6 to 8.

100 days of practice counting money, learning fractions, and telling the time. Three core areas of maths that students often need additional help to master. Start by counting groups of coins that have a value of a pound or less. Slowly learn to count greater amounts of money that include small and large notes too. Add and subtract values, and even learn to make change. Learn fractions one step at a time. Start with simple fractions and eventually learn to add and subtract mixed numbers. Telling the time is one of the more difficult concepts for children to learn. Gradually progress from learning to tell hours, to quarter hours. Eventually tell time in five minute and minute increments. This is a great workbook to start out with. Most students will grasp the concepts within each of the three sections. If a student still needs more practice, Humble Math has workbooks that provide additional practice for these concepts too.
