Discusses the basic elements of astrology and astrological chart-making, with tables of signs and houses, and an overview of rising signs

A modern classic, as potent today as when first written in 1936. Rudhyar integrates modern concepts of psychology with elements of both Western and Oriental philosophies. He succeeds in presenting Astrology as a symbolic language by reformulating its basic concepts and focusing on viewing the chart as a whole.

The first book to link the influence of the planets to the growth of the soul, Spiritual Astrology is a simple yet complete astrological guide to understanding life's higher purpose and finding the key to your personal * self-expression * self-worth and emotional security * public achievement * independence and freedom of spirit * emotional ecstasy * self-mastery and personal power * and much more Spiritual Astrology's breakthrough -- the startling rediscovery of the importance of the solar and lunar eclipses occurring just before one's birth -- reveals the lessons you came here to learn and teach, and provides a revelation to anyone who has ever looked to the zodiac for guidance.

This book explores an area of contemporary religion, spirituality and popular culture which has not so far been investigated in depth, the phenomenon of astrology in the modern west. Locating modern astrology historically and sociologically in its religious, New Age and millenarian contexts, Nicholas Campion considers astrology's relation to modernity and draws on extensive fieldwork and interviews with leading modern astrologers to present an invaluable contribution to our understanding of the origins and nature of New Age ideology. This book challenges the notion that astrology is either 'marginal' or a feature of postmodernism. Concluding that astrology is more popular than the usual figures suggest, Campion argues that modern astrology is largely shaped by New Age thought, influenced by the European Millenarian tradition, that it can be seen as an heir to classical Gnosticism and is part of the vernacular religion of the modern west.

The easiest way to learn astrology is to start with yourself. Your astrological birth chart is a powerful tool for gaining a deeper understanding of your unique gifts, talents, challenges, and life's purpose. As you begin to decipher the wealth of information in your own birth chart, you'll experience astrology in a personally meaningful way-which makes it easier to understand and remember. Once you learn the basics of astrology, you'll be able to read the birth charts of yourself and others. This friendly guidebook is the most complete introduction to astrology available. Popular astrologer Kris Brandt Riske presents the essentials of astrology in a clear, step-by-step way, paying special attention to three areas of popular interest: relationships, career, and money. She explains the meaning of the planets, zodiac signs, houses, and aspects, and how to interpret their significance in your chart. Over 30 illustrations, including the birth charts of several famous people-Al Gore, Oprah Winfrey, Brad Pitt, and Tiger Woods, to name just a few-add a helpful visual dimension to your learning experience. Practical and positive, Llewellyn's Complete Book of Astrology offers techniques for using astrology to identify the qualities you seek in an ideal mate, realize your career and financial potential, calculate your luck, and discover your inner strength.

Named "Christian" to avoid hassles (some things never change), this is the most famous, the most celebrated astrology book in the English language. It has been prized by students ever since its first publication in 1647. The Horary Astrology in these pages, in the hands of a master, is no mere parlour game. It is demanding and precise, combining science and art. Properly used, it will give answer to any well-defined question. William Lilly, famous throughout England for his almanacs & forecasts (he predicted London's Great Fire of 1666), lived during the English Civil War & was a minor historical figure in it. Into his studio came the rich and poor, nobles and commoners, with problems great and small. This new edition restores Lilly's original page layouts, with marginalia. Modern spelling throughout, this edition includes Lilly's bibliography, his original index & a new glossary. Also includes his original woodblock charts, and their modern versions. This is Lilly's great work as he himself knew it. In this volume: Book 1, An Introduction to Astrology, containing the use of an ephemeris; the erecting of a scheme of heaven; nature of the twelve signs of the Zodiac, of the planets; with a most easy introduction to the whole art of astrology. Book 2, The Resolution of All Manner of Questions, by a most methodical way, instructs the student how to judge or resolve all manner of questions contingent unto man, viz, of health, sickness, riches, marriage, preferment, journeys, etc. Some 35 questions inserted and judged.

This study of Astrology and Kabbalah explores the influence of the cosmos on individuals and nations. A new dimension of a horoscope is seen in different levels of perception and consciousness when set on a vertical mode of the Tree of Life diagram, presenting an esoteric view of personal fate and transpersonal destiny.

Synastry is the branch of astrology that tells us how we relate to other people. How Joe relates to Mary & what Mary may think of that. In this complete, classic guide to astrology & relationships, Robson goes far beyond the usual "his planets vs: her planets." He studies the overall weight of the two charts, the fertility of the inner planets, the condition of the 7th house. He compares her-planets-to- his-planets as well as his-houses-to-her-houses. Robson considers how strongly the individual wants relationships - and how many, whether he/she will marry early or late - or not at all, the likelihood of children, the possibility of divorce. He gives rules for wedding dates. In an extraordinary appendix, he lists some 266 classified rules & aphorisms, culled from many ancient sources. This is perhaps the finest book ever written on astrology & relationships. About the author: Vivian Erwood Robson lived from 1890 to 1942. By trade he was a librarian. Like many librarians he had a natural bent for research, and, in his particular case, astrology. He studied ancient astrologers closely, including Ptolemy & William Lilly. His books on electional astrology, fixed stars, and relationships, are 20th century classics.

In the popular "Little Bit of" series: a fresh, accessible introduction to the practice of astrology. Explore the zodiac, and see how it affects your life! Astrology is an ancient art in which the movements of the stars and planets can divine the future. Find out more about the practice, its history, and each of the 12 sun signs--and then follow the detailed information on how to create a natal chart and use it to craft personalized horoscopes.
